

# Your Glass Is The Fastest Way Into Your Store.

Most retail security kicks in after the damage is done. This doesn't.

**1,295**

Commercial break-ins  
in Vancouver, 2024 (VPD)

**14%**

Rise in retail theft  
year-over-year

**\$9.1B**

Annual retail crime cost  
to Canadian businesses

## THE REAL COST OF UNPROTECTED GLASS

- Glass is the entry point. Thieves are in and out in under 60 seconds.
- Your alarm fires after entry. Metro Vancouver police respond in 7–10 min. Film buys them that window.
- Shattered glass injures staff & customers. Plywood boarding destroys your storefront and kills foot traffic for days.

***Your front window isn't a barrier. Right now, it's a door.***

### Security Window Film. Applied to What You Already Have.

**No glass replacement. No renovation. No closure.** A heavy-duty adhesive film bonds to your existing glass. When struck, the glass holds — forced entry jumps from seconds to minutes. Most thieves walk away.

**Installed in a Single Day**  
No downtime. No closure. Open  
as usual.

**Protects Staff & Customers**  
No flying glass. No injury risk.  
No plywood.

**One-Time Cost. No Monthly Fee**  
Pay once. Protected permanently.

## HOW IT WORKS

- ① **Film bonds to your existing glass**  
Applied to the interior surface. Virtually invisible from the street. Zero disruption to your storefront.
- ③ **Entry stretches from seconds to minutes**  
Metro Vancouver police average 7–10min response. Security film gives them a fighting chance to arrive.

- ② **Impact hits — glass holds**  
Shattered fragments stay bonded to the film. No collapse. No opening. No glass on the floor.
- ④ **Thieves move on**  
Smash-and-grabs only work when entry is instant. Remove that, and your store stops being a target.

*Optional: Edge Bonding anchors film to frame for maximum hold.*

■ **Premium thickness films available for elevated threat environments.**

### ■ REAL RESULT Jeju Restaurant

East Broadway, Vancouver, BC

After a neighbouring smash-and-grab, Jeju had security film installed across their street-facing glass. Completed in a single day. Zero disruption to service. Their front glass now holds on impact — no shattered entry, no plywood, no merchandise at risk.

***One install. No monthly fee. No contract.***

### WHAT THIS DOES NOT DO

- ✗ Make glass unbreakable — nothing does
- ✗ Replace your alarm or cameras
- ✗ Guarantee zero forced entry

*It removes the speed advantage thieves rely on.  
Take that away, most move on to an easier target.*

### WHAT IT ACTUALLY COSTS

|                         |                          |
|-------------------------|--------------------------|
| Supply + Install        | \$9–\$14 / sq ft         |
| Edge Bonding (optional) | +\$2–\$3 / sq ft         |
| Most storefronts total  | <b>\$1,000–\$3,000</b>   |
| One break-in (typical)  | <b>\$5,000–\$25,000+</b> |

**One-time install. No monthly fee. No contract.**

✓ Authorized Installer: LLumar · Vista · Tekton (Canadian-owned)

✓ Commercial installs — Metro Vancouver & Lower Mainland · Local team. · Most installs: one day

## Is Your Storefront a Target?

No obligation. No pressure. Just a straight answer.

***We'll look at your glass, your exposure, your location. 15 minutes. Done.***
